

MOSHEN CASA

Upholstered furniture

For residential and hospitality interiors. Ten models, five categories, one frame standard. Foshan, China.

Ten models, one frame standard. Seating, tables and beds for residential and hospitality interiors.

Every piece is built on the same kiln-dried hardwood frame, the same layered fill and the same seam allowance, so a room can be furnished from more than one category without the details arguing. Sizes are quoted per element and can be re-cut for a project.

BEDS & CASEGOODS

Sona 13

One house, from frame to final seam.
Frames, filling, cutting, stitching and packing happen in one building in Foshan. Replacement covers are cut from the original pattern, not re-drafted.

The standard behind the drawing.

Most of what goes wrong in contract furniture happens between the drawing and the carton: a frame glued instead of screwed, a cover cut with a different allowance, a batch matched per room instead of across the order. The workshop is organised to keep that gap small.

FRAME

Kiln-dried hardwood, corner-blocked and screwed. Seat platforms are replaceable without rebuilding the shell, which is why a cover can be re-cut years later.

FILL & SEAM

Layered foam and fibre, density set by seat rather than by model. Visible edges are saddle-stitched by hand; the allowance is the same across all five categories.

FINISHES

Bouclé, linen, wool, velvet and leather, held in stock for sampling. Stones are selected by vein before cutting; oak and walnut are solid, not veneered.

PACKING

Carton with edge protection, one element per carton, CBM and packing list issued with every quotation.

Curve Modular

MODULAR SOFA SYSTEM
2027

Six elements on one seat height, upholstered in bouclé or leather. Elements can be re-ordered and re-covered rather than replaced, which is what makes the system usable across a long project.

DIMENSIONS	W 240–360 × D 96 × H 62 cm, per element
FRAME	Kiln-dried hardwood, corner-blocked, replaceable
FILL	Layered foam and fibre, density set by seat
COVER	Fixed, slipcover or channel — one seam allowance
LEAD TIME	10–12 weeks after drawing approval

FINISHES

- Bouclé ivory
- Bouclé oat
- Linen natural
- Wool grey
- Velvet olive
- Leather cognac

Meridian

LOW SOFA, TWO DEPTHS
2026

A low sofa in two depths — 96 and 110 cm — with a visible stitched seam running the length of the seat. Built for rooms where the sofa is the only object and the light does the rest.

DIMENSIONS	W 220–300 × D 96 / 110 × H 58 cm
FRAME	Kiln-dried hardwood, corner-blocked
FILL	Layered foam and fibre, density set by seat
COVER	Fixed, slipcover or channel
LEAD TIME	10–12 weeks after drawing approval

FINISHES

- Linen natural
- Linen sand
- Wool grey
- Wool charcoal
- Leather cognac
- Bouclé ivory

Campo

FIXED SOFA, THREE WIDTHS
2025

A fixed sofa in three widths for rooms that do not need a system. Same frame, same fill, same seam allowance as Curve, with a single bench cushion and a lower back.

DIMENSIONS	W 200 / 240 / 280 × D 92 × H 60 cm
FRAME	Kiln-dried hardwood, corner-blocked
FILL	Layered foam and fibre
COVER	Fixed or slipcover
LEAD TIME	9–11 weeks after drawing approval

FINISHES

- Bouclé ivory
- Bouclé oat
- Linen natural
- Wool grey

Riva

CURVED SHELL ARMCHAIR
2027

A curved shell on four slim bronze legs. The shell is molded over a hardwood frame, then upholstered so the seam falls inside the curve rather than across the front.

DIMENSIONS	W 78 × D 76 × H 74 cm
FRAME	Molded hardwood shell, corner-blocked
FILL	Molded foam, hand-shaped
LEAD TIME	8–10 weeks after drawing approval

FINISHES

- Velvet sand
- Velvet olive
- Bouclé ivory
- Linen natural
- Leather cognac

Pico

COMPACT LOUNGE CHAIR
2026

A compact lounge chair for bedrooms, libraries and hotel corners. Same shell language as Riva, narrower seat, lower back, four legs instead of a swivel base.

DIMENSIONS	W 66 × D 70 × H 70 cm
FRAME	Molded hardwood shell
FILL	Molded foam
LEAD TIME	8–10 weeks after drawing approval

FINISHES

- Velvet sand
- Wool grey
- Bouclé oat
- Linen natural

Terra

TRAVERTINE COFFEE TABLE
2026

A travertine top on a cast bronze base. Each slab is selected for vein direction before cutting, so the surface reads as one piece rather than a pattern.

DIMENSIONS	Ø 90 / 110 × H 32 cm
LEAD TIME	8–10 weeks after slab selection

FINISHES

- Travertine vein-cut
- Travertine cross-cut
- Marble grey
- Marble white

Lune

SIDE TABLE, BRONZE BASE
2025

A small side table that sits beside any sofa in the collection. The base is a single cast piece; the top is a slice of the same stone used on Terra, so the two read as a pair.

DIMENSIONS	Ø 42 / 50 × H 46 cm
LEAD TIME	6–8 weeks

FINISHES

- Travertine vein-cut
- Marble grey
- Marble white

Alder

OAK DINING TABLE
2025

A solid oak top on tapered legs, dimensioned for hospitality seating plans. Tops are glued up from staves rather than veneered, so a corner can be repaired instead of replaced.

DIMENSIONS	W 200 / 240 / 280 × D 100 × H 75 cm
LEAD TIME	9–11 weeks after drawing approval

FINISHES

- Oak natural
- Oak smoked
- Walnut natural
- Walnut dark

Alba

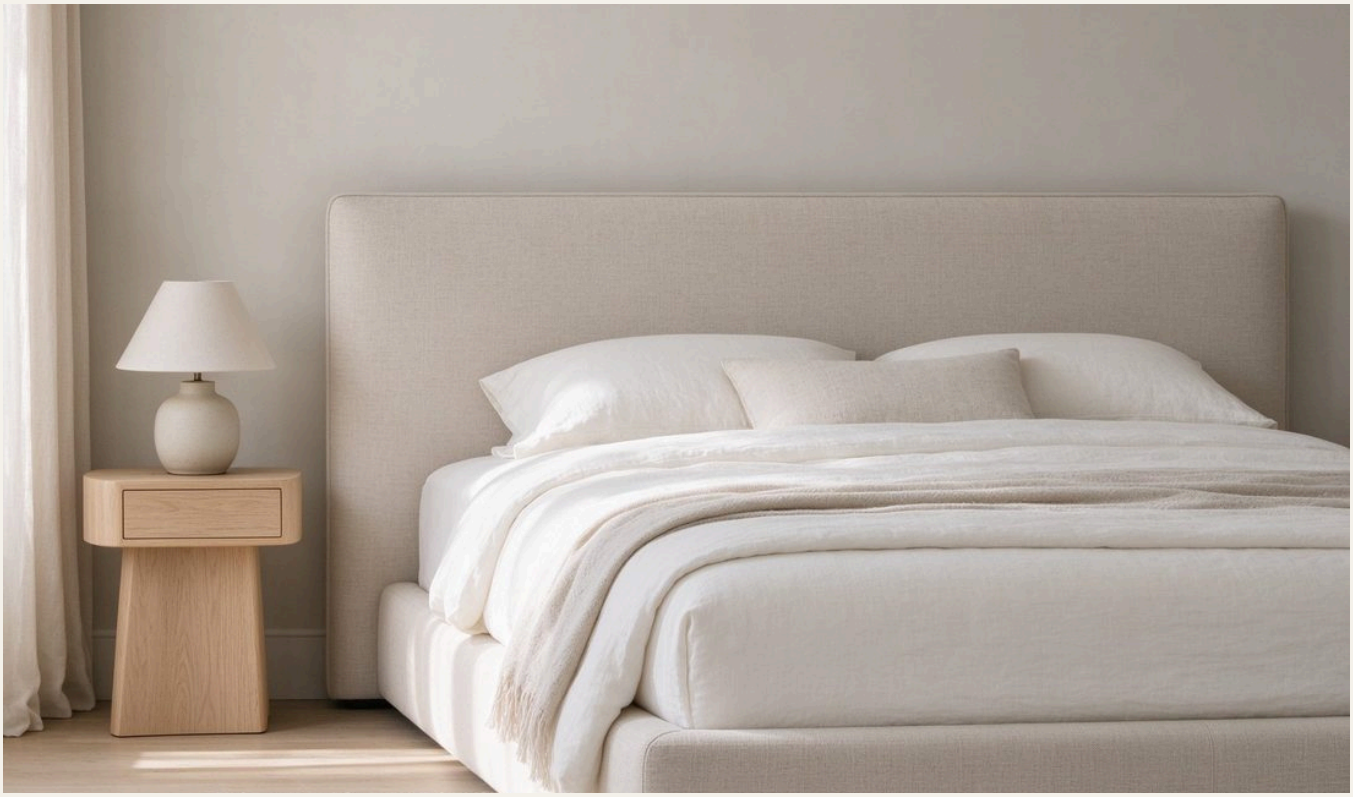

DINING CHAIR
2025

An upholstered dining chair with a low back, built to be sat in for two hours rather than twenty minutes. Stackable to four, with a replaceable seat cover.

DIMENSIONS	W 52 × D 56 × H 80 cm
FRAME	Solid beech, mortised
FILL	Molded foam seat, fibre back
LEAD TIME	8–10 weeks

FINISHES

- Wool grey
- Wool charcoal
- Linen natural
- Leather cognac

Sona

UPHOLSTERED BED
2026

An upholstered bed with a floating headboard — the base is recessed so the bed reads as a single volume. Three widths, and a headboard that can be re-covered without changing the frame.

DIMENSIONS	W 160 / 180 / 200 × L 214 × H 112 cm
FRAME	Kiln-dried hardwood, corner-blocked
COVER	Fixed or slipcover
LEAD TIME	10–12 weeks after drawing approval

FINISHES

- Linen natural
- Linen oat
- Wool grey
- Bouclé ivory
- Leather cognac
